SUMMARY

Seeking a fresh graduate full-time job opportunity in the field of software to contribute meaningfully to the development of the organization and self.

EXPERIENCE

Media Verse · Internship   Dec 2022 - Jan 2023

Handled documentation of a Real Estate website describing everything from features, functionalities, and user guide. Also, helped new interns set up their Wordpress and supervised them.

Media Verse · Internship   May 2022 - Jul 2022

Responsible for building a multi vendor food delivery web application similar to Talabat where users can view restaurants, browse menus, and place an order. Used AJAX, PHP, SQL, API calls.

PROJECTS ↗

Hasanati · Founder   Feb 2023 - Jun 2023

A web application that allows Muslims to track their progress in terms of Prayer, Quran, and more. The app offers stunning UI&UX designs and powerful API integrations.

VOX Dashboard   Feb 2023 - Jun 2023

This MERN project offers a dashboard for VOX admins to perform CRUD operations. These operations are also reflected on the user page. Also, integrated REST API to the app.

Zomato Clone   Feb 2023 - Jun 2023

Zomato is an online food service platform. This clone project was built to test my React frontend skills. Includes sliders, responsive design, skeleton loading, and more.
